Deploy and maintain Windows 10 stress-free and cost-effectively using Adaptiva’s Windows 10 Accelerator Program. This program delivers an end-to-end ecosystem of all the products, tools, and training you need to speed Windows 10 deployments at scale.

The four key components of the program include:

**Plan**
- Compatibility – App, Driver & Hardware
- App Rationalization
- Employee Communication Plan
- Windows 10 IT Team Training
- Security Design Plan

**Deploy**
- App Mapping Automation
- BIOS-to-UEFI Migration
- Security Features Enablement
- Employee Training
- P2P Zero-touch OS Deployment
- User Self-Scheduling
- Enhanced Approval Workflows

**Maintain**
- Windows OS Health and Security Checks
- Windows 10 Servicing Training
- OSD Image and Content Auto-updating

There had been mighty struggles with patching and staying current. [With Adaptiva] I’ve pushed out terabytes of data to our branches, and the one call I haven’t gotten that I used to get every day is: our network is slow.

Chris Cobb, Vice President and Desktop Engineering Manager, Chemical Bank
### Windows 10 Accelerator Program

**The right products. The right plans. The right tools.**
